

PIOC is a local political party created in November 2018 by a group of energetic local residents of Orihuela Costa and former members of CLARO.

PIOC's aim is for all the residents and non-residents of Orihuela Costa to have a substantial development to local utilities, an improvement on town services and modernised infrastructure throughout all neighbourhoods.

PIOC objectives are achievable and these will improve life for all in the Costa Campomar area. To achieve these goals, votes are needed.

Independence is a long-term goal, and we would not seek this if we were treated fairly, with equality and with decency by the Orihuela government. A list of our objectives is listed below and on our website.
